

Calcule sans poser les divisions suivantes.

$$46 \div 2 = \square$$

$$68 \div 2 = \square$$

$$64 \div 2 = \square$$

$$86 \div 2 = \square$$

$$62 \div 2 = \square$$

$$88 \div 2 = \square$$

Calcule sans poser les divisions suivantes.

$$24 \div 2 = \square$$

$$48 \div 2 = \square$$

$$42 \div 2 = \square$$

$$86 \div 2 = \square$$

$$120 \div 2 = \square$$

$$106 \div 2 = \square$$

Calcule sans poser les divisions suivantes.

$$482 \div 2 = \square$$

$$840 \div 2 = \square$$

$$426 \div 2 = \square$$

$$248 \div 2 = \square$$

$$200 \div 2 = \square$$

$$828 \div 2 = \square$$

Calcule sans poser les divisions suivantes.

$64 \div 2 =$

$28 \div 2 =$

$608 \div 2 =$

$126 \div 2 =$

$144 \div 2 =$

$22 \div 2 =$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

Calcule sans poser les divisions suivantes.

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$

$$\div \quad 2 \quad = \quad \square$$
