

Dire l'heure en anglais.

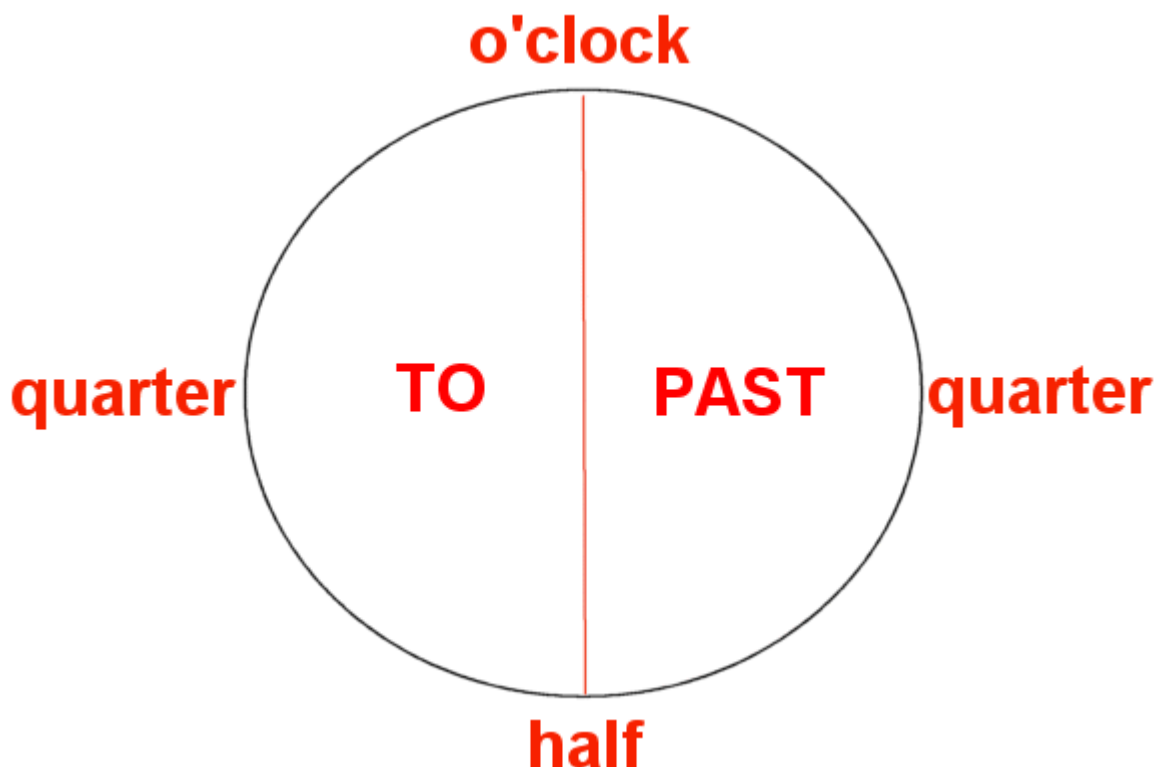

Contrairement au français, on indique toujours les minutes en premier.

8 h 20 = it's **twenty** past eight.

Pour construire l'heure, on a besoin de 2 petits mots bien utiles.

- **PAST**: pour toutes les minutes de 1 à 30. Pour s'en souvenir plus facilement, on peut remplacer **PAST** par 'après'.
- **TO**: pour toutes les minutes de 31 à 59. Pour s'en souvenir plus facilement, on peut remplacer **TO** par 'pour aller jusqu'à'.

On peut résumer l'heure à ce dessin:

'midi' = 'midday' (mid = milieu, day = jour) | 'minuit' = 'midnight'
