

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$6,53 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$9,7 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$12,48 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$5,369 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$3,785 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$7,57 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$12,1 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$18,925 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$7,52 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$9,4 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$18,315 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$56,85 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$3,582 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$6,12 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$0,4 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$3,56 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$3,05 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$1,9 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$0,5 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$123,456 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$64,07 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$0,001 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$12,21 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$154,687 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$34,128 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$354,68 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$302,7 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$245,7 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$703,609 = \square + \square = \square + \frac{\quad}{\quad}$$

$$1245,83 = \square + \square = \square + \frac{\quad}{\quad}$$

$$48,326 = \square + \square = \square + \frac{\quad}{\quad}$$

$$3210,4 = \square + \square = \square + \frac{\quad}{\quad}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$150,68 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$53,042 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$3,7 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$316,57 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$34,69 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$2,364 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$5,3 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$4,007 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$47,687 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$5,26 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$265,35 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$4,058 = \square + \square = \square + \underline{\hspace{2cm}}$$

Les nombres décimaux en entier plus fraction

$$2,5 = 2 + 0,5 = 2 + \frac{5}{10}$$

$$9,65 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$16,5 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$147,359 = \square + \square = \square + \underline{\hspace{2cm}}$$

$$0,025 = \square + \square = \square + \underline{\hspace{2cm}}$$
